

## Heartbroken Wife a Suicide To Escape Sorrow and Pain

### Mrs. E. M. Clymo, of Round Mountain, Takes Carbolic Acid to End Unhappy Life Aggravated by the Anguish of Physical Ailments.

Mrs. E. M. Clymo, whose husband works at Round Mountain, committed suicide at 11 o'clock this morning at the Soller rooming house on Main street, where she and her 10-year-old son have been lodging for several weeks.

Before ending her life Mrs. Clymo wrote a letter to her son, Ollie Sheehan, at Springville, Cal., and sent her child out to the postoffice to mail it. When the lad was absent the woman took carbolic acid and passed away in terrible agony. Her groans were heard by Dr. Robinson, who conducts the lodgings, and he entered the room, only to find that his services were of no avail, as the woman was dead.

In the last stages of dissolution and soon became a corpse.

The tragedy puts a period to an unhappy family history, beginning with her first marriage to a man named Sheehan, when she lived near Centerville, Cal. By this marriage she had two children, the eldest of whom is Ollie, the one to whom she addressed her parting letter and who is reputed to be a young man who always helped his mother by repeatedly sending money.

Mrs. Clymo had been separated from her second husband about five months, alleging that he was cruel to her boy and refusing to live with him. Five weeks ago a reconciliation was effected and it was agreed by the pair that they would live together for another month, and if they could not harmonize their differences they were to separate for good.

Little seems to be known of Clymo, although he is said to have worked in some of the mines of Tonopah for some time before going to Round Mountain. His friends give him an excellent reputation, and say he even offered to pay for the maintenance of his wife and child at a hotel in Round Mountain if she would consent to go there until she had fully recovered from her illness. From a statement made to Coroner Dunsen it would appear that deceased had been suffering from heart trouble and that she had been using diluted carbolic acid to alleviate the pain. That accounts for the presence of the poison, which the boy says his mother kept in a trunk. Others said the woman was inclined to despondency since an attack of pneumonia poisoning, which left her with intermittent intestinal pains. She had been married to Clymo only two years.

The body was found lying across the bed clothed in a house dress. Beside her was a bunch of Christian Science literature. She had risen at 5 o'clock this morning, according to Dr. Robinson, but gave no signs of any intention to take her own life. She was very reticent about her married life, but it is inferred that the separation was over the child.

After listening to medical testimony this morning the case was continued until Monday morning.

The funeral will be held tomorrow afternoon at 2 o'clock, and interment will be in the local cemetery. Lundblom was not a member of the Miners' union.

## STOCK FORGER SENT TO TOMBS FOR HIS CRIME

### MAN WHO PUT NORTH STAR BAD CERTIFICATES ON MARKET ADMITS CRIME.

NEW YORK, Dec. 6.—Convicted of forging certificates of the Tonopah North Star Tunnel company for 1000 shares of stock of par value of \$100, Alfred Hunter, a former broker's cashier, was sent to the Tombs yesterday to await sentence.

In making his plea in general sessions court Hunter revealed how he had deceived Wall street and floated upwards of \$100,000 worth of bogus certificates of the company last July. He had gone to curb brokers, bought actual stock and got on the books as a customer, he said. Thus having obtained a genuine certificate, he had engraved copies made and forged the necessary signatures to them. The certificates had passed as good with several Wall street houses.

Hunter asserted that the money he had realized by his operations had been lost in "playing the market." He got into the hands of the police through a transaction with a Broadway jewelry firm, and an investigation of his record connected him with the Tonopah swindle.

## SALOON COMPLAINT PROVES MALICIOUS

### LIQUOR BOARD INQUIRES INTO CHARGES AGAINST NORTHERN DANCE HALL.

Late yesterday afternoon the county commissioners, after investigating a sworn complaint against the management of the Northern dance hall, decided that the affidavit was inspired by malice, as the parties to it had left town and evidence was offered to prove the falsity of the statements contained therein.

The question of revoking the license was under consideration, but after listening to a number of witnesses it was decided not to interfere with the place. It was shown that John Clark, the manager, had always kept within the bounds of the law and that the allegations contained in the statements were without the least foundation.

## ORE SHIPMENTS INCREASE DURING THE PAST WEEK

The Tonopah Mining company sent to the mill 3000 tons, the Belmont 3953 tons, the Montana-Tonopah 1087 tons, the Tonopah Extension 1207 tons, the West End 1174 tons, the MacNamara 547 tons, the Jim Butler 400 tons, the North Star 100 tons, the Merger 350 tons, and the Midway 50 tons, making the total production for the week 11,868 tons, the estimated value being \$280,355.

## DAMAGES AGAINST ESPEE.

In the supreme court decision of the case of Forrester versus the Southern Pacific, the amount of punitive damages awarded was \$10,000, in addition to \$1115 for such expenses as railroad fare, hospital charges, nursing, etc.

## Orangemen Hide Arms In Ireland

By Associated Press.  
BELFAST, Ireland, Dec. 6.—Ulster unionists hid rifles and war munitions during the night, fearing operation of the royal proclamation of an embargo on arms and ammunition in Ireland.

## MILITANTS WAIT FOR RELEASE OF PANKHURST

### JAILORS COMPELLED TO DESIST FROM FORCIBLY FEEDING PRISONER.

By Associated Press.  
EXETER, Dec. 6.—Militants are surrounding the jail in anticipation of the transfer or release of Emmeline Pankhurst. Forcible feeding is precluded on account of the condition of her heart, and she may, perhaps, be released tomorrow, after the demonstration in London. Militants in Liverpool attempted to destroy the exhibition buildings.

MANCHESTER, Dec. 6.—Exhibition hall, in the suburbs, was burned by an arson squad of suffragettes. Loss, \$40,000.

## DUG A WELL ONCE DIDN'T QUALIFY

### TASK OF GETTING A JURY PROVES TEDIOUS IN A TONOPAH DAMAGE CASE.

The case of Peter Zelavins against the Tonopah Belmont Mining company was called in Judge Harwood's court this morning and probably will be in progress about a week. A large number of witnesses are here from Tonopah to testify.

The entire day was spent in securing a jury, the interrogatories pronounced being lengthy. There was a bit of humor in the usually dry proceedings when W. G. Smith, night caretaker of the courthouse, in response to a question if he ever had any experience in underground work, replied that he had, and explained that he dug a well once.—Reno Gazette.

## PACKEY WINS EASILY.

ST. LOUIS, Dec. 6.—Packey McFarland of Chicago outpointed Harry Trendall of St. Louis here last night in eight rounds of boxing. McFarland was the aggressor throughout and landed frequently.

## TEMPERATURE REPORT.

Highest temperature yesterday, 40 degrees; a year ago, 25.

Lowest temperature last night, 27 degrees; a year ago, 13.

# Aftermath of Football Season On the University Gridirons

By Associated Press.  
NEW YORK, Dec. 6.—The spectacular manner in which Harvard defeated Yale in their annual football game, due to five field goals kicked by Charles E. Brickley, the Crimson fullback, has led to much delving into gridiron records to ascertain whether the feat was a record one, as claimed by many immediately after the game. Careful research has proved that Brickley did not make a new field goal record, but merely tied the one made by Bernie Trafford of the Harvard eleven of 1890 in the game with Cornell on November 1 of that year. In some respects Trafford's record was better than Brickley's since all of his kicks were drop-kick field goals, while Brickley scored four in this manner and one from placement.

The Cornell team of 1890 was very weak compared to the Yale eleven that faced Harvard on November 25 of this year. The Crimson combination defeated the Ithaca team of 1890 77 to 0, and Trafford kicked behind a defense that was never tried in

## CANNOT FIND LOPEZ IN BINGHAM APEX

By Associated Press.  
BINGHAM, Dec. 6.—Sheriffs have resumed the search of the Utah-Apex mine, but are unable to find the body of Lopez. A majority believe Lopez has escaped. It is possible they may search every portion of the mine before night.

## BUSINESS CENTER MENAGED BY FIRE AT A LATE HOUR

### CANDY STORE NEXT BANK BUILDING FURNISHES FOOD FOR FLAMES.

At 10:40 o'clock last night John Hamlyn, owner of the candy kitchen adjoining the Bank block, returned from lunch to find his place ablaze in the rear. He called to H. H. Bacon, the real estate man, who was working in his office next door, and a telephone alarm was sent in. In the meantime W. W. Booth of the Bonanza saw smoke rising from the rear on St. Patrick street, and he also sent in an alarm. The Eagles were in session in Odd Fellows' hall, across St. Patrick street, with Fire Chief Pike Kelly in attendance. The session was adjourned and all hands took part in suppressing the blaze.

Letson Bulliet and a few friends ran to the corner of Bryan avenue and laid a line of hose, but could not get water, as it is supposed the hydrant was frozen. The fire department arrived after a short delay and laid a line of hose from the Mizpah hotel corner and soon had the fire under control.

The most effective work was done by Judge Averill and Julius Garner, who occupy rooms in the Bank block. Both were in bed at the time, but seeing smoke ascending along the east side of the big building, they manned the fire hose of the building and had the first stream, from the fourth floor of the Bank block, pouring on the fire through a skylight in the candy shop. This, fortunately, landed directly on the blaze and soon allayed alarm.

No explanation of the origin can be offered. Mr. Hamlyn closed his store at 10 o'clock and went out for lunch and a short walk. He returned in about half an hour. As soon as he entered from the front he observed that the electric light left burning in the rear was out and, in looking for the reason, found his bed ablaze. This is when he gave the alarm. The front of the store is not damaged. Owing to the inflammable nature of the adjoining stores and offices, it was feared that the fire would spread, but the prompt action of Judge Averill and Julius Garner kept the fire in the narrow quarters where it originated. The loss is covered by insurance.

## BUILDING AT PRISON FARM.

With the fall plowing and ranch work at the prison farm practically completed, Warden Dickerson will erect suitable buildings for an up-to-date ranch.

## GIANTS SIGN CUBAN PITCHER.

NEW YORK, Dec. 6.—Secretary Foster of the New York National league club announces that the Giants have signed Emilio Palmero, a young Cuban pitcher.

## Denver Saved from Famine Snow Reaches Tops of Cars

## No Help Wanted for Mexico War

By Associated Press.  
HERMOSILLO, Dec. 6.—Soldiers of fortune are offering their services as machine-gun operators, musicians, physicians and sharpshooters, but Carranza is refusing all. He said "this revolution is a Mexican affair."

## PRECEDENT MAY BE FIXED BY THIS VERDICT

### STATE INDUSTRIAL COMMISSION LOOKING CLOSELY INTO CAUSE OF DEATH.

The state industrial commission is taking an active interest in the death of William Blumstrom, who died from pneumonia at the Mine Operators' hospital, after sustaining injuries in the Tonopah Extension mine. The verdict will decide whether the state is liable for the \$5000 paid in cases of death from accident, and if there is no connection established between the demise and the casualty the remains will have to be interred at the expense of the county and the four children and a widow are likely to become permanent public charges. Dr. McDonnell represents the industrial commission.

This is the first case of the kind in Nevada, and whatever is done will establish a precedent for future claims. In any event the state will be the loser.

Justice Dunsen, acting coroner, swore in a jury, consisting of W. T. Somerville, E. A. Horner, D. H. Young, Frank Murray, A. J. Gingles and Albert Pearson, last Wednesday, and after visiting the scene of the accident, adjourned the hearing until yesterday afternoon at 4 o'clock. At that time the testimony of the widow, Edna Blumstrom, was heard, Jack Schwabie, shift boss of the Extension, and Isaac Nordman, Mike Melos and Frank Riga, employees of that company, told what they knew of the circumstances leading to the accident, and then the hearing was postponed to this morning.

Dr. Masterson, representing the coroner, had charge of the autopsy, and was assisted by Drs. Grigsby and McDonnell for the industrial commission.

## Food Supplies Becoming Exhausted But Coal, Meat and Milk Deliveries Beginning to Be Made—Residence Streets Are Impassable and Railroads Are Blocked.

By Associated Press.  
DENVER, Dec. 6 (2 p. m.).—The storm is over and the sun is shining. Altogether 45 inches of snow fell. The removal of drifts has been undertaken frantically. One train has arrived.

By Associated Press.  
DENVER, Dec. 6.—Denver is getting out of the drifts that encumber every street and prevent the handling of traffic, either by wagon, rail or automobile. A passage has been cleared through the center of Seventeenth and Sixteenth streets, and Colfax avenue is the only route by which access may be had to the upper part of the city known as Capitol hill. For the first time in history the tramway company has been unable to make an impression on the mountains of snow encumbering the avenues, in spite of the use of rotary snow plows, push plows and rotary sweepers.

SHELTERED IN AUDITORIUM.  
Thousands who were unable to reach their homes Thursday night and Friday morning were accommodated with cots in the municipal auditorium, and most of these were sent to their homes as fast as transportation could be arranged today. The greatest fear is from fire, as it would mean total destruction under existing conditions, since the fire department cannot move. A fire patrol has been organized and all persons are cautioned about the use of fire.

This latter injunction is hardly necessary, since the big skyscrapers are without fuel and few householders have more than a few days' supply in their cellars. This is due to the fact that the proximity of the city to the coal fields has encouraged consumers to live on a hand-to-mouth supply, delivered fresh from the mines every morning. This has caught most citizens with small stocks of fuel, and until train service is restored the trouble cannot be overcome.

## RAILWAY LINES BEING REBUILT BY GEN. VILLA

By Associated Press.  
SALT LAKE, Dec. 6.—The Rio Grande railroad is moving trains 24 hours late. Snowdrifts are as high as the cars.

OGDEN, Dec. 6.—Union Pacific trains are 30 hours late. Only two have moved today.

## STORM REACHES UTAH.

By Associated Press.  
JUAZ, Dec. 6.—Reconstruction of telegraph lines and railways in northern Mexico has been undertaken by rebels. This is the first semblance of peaceful industry in many months.

General Villa believes the federales are thoroughly routed, and expects no early fighting. It is reported that Huerta would welcome the massing of a large force of constitutionalists near the capital. He believes he could defeat them easily at straight warfare. This worries the rebels.

PRESIDENT, Dec. 6.—Three thousand federal troops, civilians, women and children of wealthy Chihuahua fugitives are nearing the border here. United States troops have arrived to take charge of the caravan.

## PARENTS DEMAND RETURN OF CHILD

By Associated Press.  
The state of Nevada on the relation of Odessa Davenport is the title of a case that initiates the juvenile court record of Nye county. The suit is for possession of the child of Mike Kolach and wife, who was taken from the parents and entrusted to the Woman's club of Tonopah after an inquiry developed the fact that the child was being brought up in vicious surroundings. Since then the parents have removed from the restricted district and are anxious to secure their child. The defendant demanded a jury trial and the following were in the box when court took a recess at noon: W. J. Fancher, R. H. Hussey, Albert Johnson and Archie Daniels. Claude D. Manning and C. R. Simons were excused for cause.

## FIRST SESSION OF THE JUVENILE COURT HELD IN NYE COUNTY.

Reports from the strike district at Trinidad are awaited with anxiety, as it is known that the strikers, with few exceptions, were in no condition to weather such a fearful storm, and had no other shelter than tents.

ALONG THE FOOTHILLS.  
Along parts of the continental divide from 38 to 48 inches was reported as the snowfall. Reports were meager, but indicated that so far there had been no serious loss, owing to the absence of wind and the mild temperature.

At Boulder records for 20 years were exceeded by a 20-inch snowfall. Denver, with 1.85 inches, experienced the heaviest precipitation along the eastern slope of the Rocky mountains, as compared with Pueblo's .30 of an inch and Cheyenne's .46. Rain was falling in western Kansas and Nebraska, at Sterling, in northeastern Colorado, and at La Junta, in the southern part of the state. The prediction last night was for a possible drop of 6 to 8 degrees by morning.

At Central City, where a blinding fall of snow continued throughout the day, it is thought that nine miners and a rescue party of eight have been lost in the blizzard.

Wyoming reports a general snowfall of about 14 inches throughout the

## HALF MILLION RAISED.

By Associated Press.  
SEATTLE, Dec. 6.—The four-master Aloha, en route from Fiji to Grays Harbor, has been imperilled since Sunday off Destruction Island. The crew of eleven rowed to shore.

## ELECTION OF OFFICERS BY TONOPAH EAGLES

Tonopah eagle, No. 271, Fraternal Order of Eagles, held its annual election last night at its hall, with the following results: Henry (Poke) Kelly, worthy president; Niles McCormick, vice president; Nelson Balliet, chaplain; C. L. Richards, secretary; W. B. Evans, treasurer; trustee (for three years), R. Petroni; trustee (for two years), E. H. Latimer; trustee (for one year), Elmer Tanzy; inner guard, Lee J. McIntosh; outer guard, William Frohock. The office of physician was not filled, but will be elected next Friday night.

## PACIFIC SCHOONER MENAGED BY STORM

By Associated Press.  
BALTIMORE, Dec. 6.—A fund of \$500,000, which the Knights of Columbus have been collecting for more than two years for the Catholic university at Washington, has been completed.
